

## **ADDITIONAL CORRIGENDUM**

The point no. 21 of the corrigendum is to be amended as follows.

“In the storage system in section 8.6 of RFP vol 1, please replace the requirement of

***“Offered STORAGE SYSTEM solution shall be configured with total of Single OR Dual active Quad Core processors in power high availability mode and shall be scalable”***

By

“Offered STORAGE SYSTEM solution shall be available in high power availability mode and shall be scalable without any controller /gateway change.”
